#### **PULLOUT LARDER UNIT**

Pull the door, and the baskets come out completely making items visible and accessible from both sides for quick access. Soft close runner slides ensures smooth opening and closing.

With up to 120 Kg carrying capacity and access from right and left, the unit offers maximum utilization of entire cabinet space.

The door bracket provides 5-way adjustment enabling the door to perfectly align with the cabinet.

#### **SWINGOUT PANTRY UNIT**

Swingout Pantry Unit comes with two moving shelves, one inside the cabinet and another attached to the door of the cabinet. As the door is opened, the inside shelf comes out automatically.

Soft close runner slides ensures smooth opening and closing.

Baskets on the door are especially useful in storing bottles, cans and smaller items allowing for easy retrieval.
